

Please Give to Trinity. Here's Why.

1. Trinity Montessori is proud to be one of the few schools offering families five days of in-school instruction along with after-school care. We are so happy to be back with our students!
2. We have taken strategic and costly measures to make sure our school is safe by installing an upgraded ventilation system and purchasing the new Sani Spray disinfecting system. These additional expenses have impacted our fiscal realities but are necessary to assure a healthy and safe environment.
3. Our classrooms and community spaces have been reimagined to maintain social distancing. This includes limiting the number of students who may attend Trinity this year. 15-16 students are in each class to bring opportunity for social and emotional wellness as well as academic achievement. (While this was to have been our largest enrollment in Trinity's 53-year history, we know with your support, our future is sustained).
4. We remain the largest, private Montessori School in Western and Central New York. Even now, our students will continue to receive weekly lessons in STEM technology and computers, Spanish, music, and physical education.
5. We are all craving the family and community spirit that Trinity is known for. Our Mondo Moto Pumpkin Run helps bring us together in purpose, as the children help raise funds and protect the future for "their" school.
